### "Living For The Games"

Visit "[Living For The Games](#)" on MotoLyrics.com

Everyday you watch the V screen  
You never miss a show  
You know what I mean  
The main thing for you  
We know it all  
Is to watch the phone and wait to call  
You know it  
The answer  
Wrong number  
Bad luck  
Maybe next time...  
You've got no friends just you and your shows  
You stay at home  
That's how it goes  
You need nobody to feel good  
Don't even know your neighbourhood

Chorus:  
Stop  
Stop living for the game  
No  
Don't turn the TV on  
Don't do the same  
Stop  
Stop living for the games  
No  
Don't be a number without a name

So now it's time to turn it on  
You see the prizes they have won  
You'll never face reality  
You'll never get the chance to win  
You know it  
The answer

Wrong numbers  
Bad luck  
Maybe next time  
You are the master of all games  
Know all the numbers and all the names  
No one can beat you

Oh not you  
You are the best  
You think it's true

Chorus:  
Stop  
Stop living for the game  
No  
Don't turn the TV on  
Don't do the same  
Stop  
Stop living for the games  
No  
Don't be a number without a name

You'd give everything to win the prize  
Once in your life  
To be the star  
You know the answer  
Sure you are the one  
This is not fair  
The prize is gone  
So now you're waiting for your time to come  
They soon will see who you are  
There's just the will to beat them all  
Then you can proof who's the star
