Oppression's ruling our land  
The years have past so fast  
Many tried to change something  
Impossible in the past

But now that there are beter days  
And we have changed a lot  
We all should stand together now  
And tell them what we want

A new horizon's there  
Let us take the chance  
It's growing everywhere  
And life gets a sense

Freedom should kiss our land  
We ought to be free but we're not  
They try to put us down  
We have to change a lot

We  
We are  
The People  
It's our land and our life

We  
We are  
The People  
You cannot turn you can't survive

Now  
It's time to resign  
We have to do it now

The change of the government  
It's the only solution

You  
You can't ignore us  
Open your eyes and see  
You can't go on like this anymore

You know  
Your system has failed  
There's no need to try again  
You've lost our confidence  
Long ago, it's too late

Now it's time for you to go  
This was not our way  
We are the ones you were working  
So listen what we say

We want to live in freedom now  
No terror and no fear  
We almost did it, no rest now  
The victory's so near

(Dedicated to the people in East-Germany,  
May they do the best out of their new freedom...)
