How Do You Think I Feel?
I never worried we would last
'Cause we had no strings to the past
This time when you went away
You wouldn't come back to stay

So clever you led me to believe
Nothing had come between us
By the softness of your voice
The sensation from your touch

How do you think I feel?
Knowing you're not for real
All this time just pretending
Our love would never end

So much for all your good intentions
Sadly your promises fell through
Since that day I lost my faith
It seems all my love turned to hate

How do you think I feelâ€¦!

Solo

Next time around won't be the same
If loves a disguise for silly games
I've made the same mistake before
I know I won't make it anymore

How do you think I feelâ€¦!
