

## **Sewing With Nancie (The Reason) "My Car"**

Visit "[My Car](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I, I got my new transmission fixed, now it kicks  
and I, I got my 5.0 V6, I am slick

Me and you go driving down the street  
Waving to the people that we meet  
We will drive it far like a shooting star  
That is how we do it in my car...

Sing, sing along to my cassette, gonna make you  
sweat  
Sit back, 'cause this is my favourite track, the racecar  
track

Me and you go driving to the park  
Me and you go driving after dark  
We will drive it far  
Like a shooting star  
That is how we do it in my car...

Carbon monoxide's a thing of the past  
I only fill up with high octane gas, gas, gas...  
(Let's go!)

I, I got my kenwood system fixed, that bass sure kicks  
and I, I got my 5.0 V6, I am slick

Me and you go driving down the street  
Waving to the people that we meet  
We will drive it far  
Like a shooting star  
That is how we do it in my car  
That is how we do it in my car  
That is how we do it in my car!
