Though you became a star used to a twinkle in his  
heart  
every night little sky princess  
You're living on a cloud that will fall to the ground  
some day little sky princess  
Go on with your career don't worry bout him dear he's  
doing okay  
You live a life of gaiety that isn't reality I hope you'll  
realize someday  
[ fiddle - guitar ]  
Though you became a star used to a twinkle in his  
heart  
Every night little sky princess  
I wonder if he calls you on the phone would you be  
alone  
And be proud to hear from him  
Remember he's the little guy who have to get up to the  
sky  
And he'll always be sorry  
For the twinkle in his eye will stop twinklin' by and by  
If you don't come down sky princess
