You'll never know just what it means. To find a better
Place. Inside your head there's got be a way out. Who
Exactly are you to me? Just another face. Or something
More that I should seek out? You want to hate it. I want
To break it down. It's the same unknown. A different
Cloud. You're the perfect kind of girl. I've got to know.
You're the perfect little girl. Cause they said so.
You'll never know how much you need to find a better
Place. Inside your head there's got to be a way out.
Who
Exactly are you to me? Another pretty face in a world of
Pretty faces. I want to break it down. I want to know if
This is real. I want to break it down. I'm ready. I'm
Ready. Don't want to break. I'd hate to... Get lost and
Wind up on the... Outside
