[Chorus] It's an American Nightmare We don't fight fair
We take lives here Done gone [Verse One: Brother Ali]
Untouchable Rain, sun or cool Breeze, ease, the pain
crack another brew Ghetto public school, leak rain from
the roof Troubled youth, was your name? Straight from
the womb Cycle coming true Your father flew through
the same trap door that you'll one day plummet
through Ain't nothing new Rugged like a hundred proof
Place where they say the easy way is jumping from the
roof Police coming through They rough Hand cuff, G
Grab knucks, points guns at you no matter what you do
How the quote unquote justice move If you protect us
then who protect us from you? There's a couple youth
Workers but they're few Far between, they can't reach
but one or two You only bustin' loose When you got
numbers glued to your back Whether that's a jersey or
a jump suit You wonder what you do to make the world
punish you That's when your sense of right and wrong
start to come aloof Hustlers recruit Right in front of
school Fuck the rules You got ? , you got nothing to
loose They show it on the news Them people judging
you As if you had a fuckin' chance this is what you
choose Can't sing nothing but the blues Americas
Nightmare the God's honest truth [Chorus] - 2X [Verse
Two: Scarface] I'm barely grown I'm lost all alone Out
on my own My mind gone Pocket with stones And I pitch
to these unknowns Cops tend to roll undercover trying
to bust us But cops get they head flown I'm in a dead
zone I ain't supposed to be here I'm a ghost with a
pistol blowin' smoke totin' weed here See here? The
fine print you ain't read there The I-don't-give-a-fuck-
part Approach you where you sleep at Black Your whole
world seems to fade to it And I'm a passer-by acting
like I ain't do it It's plain stupid The drugs must have
done that Bleed I get the dry heave Nauseous because
I can't vomit Something Wicked this way cometh The
ending of days God promise That's brung us To the
point where we at now And I have come to far for me to
back down These devilish ways These voices I hear
from the grave Speak to me saying "Kill that
motherfucker", I'm a slave to it [Chorus]
