I wanna go to California
I wanna find myself in a Beach Boys song
I wanna tell ya that "I love ya"
It's gonna sound so good on the way to Big Sur

We see the ocean and my mind is a blur
All the way to Monterey and we're hanging around
To watch the sun go down, down, down, down
So come on, baby I tried to phone ya
Let's go and hang out in California

I wanna go to California [x2]
I wanna tell ya that "I love ya"
It's gonna sound so good on the way to Big Sur

We see the ocean and my mind is a blur
All the way to Monterey and we're hanging around
To watch the sun go down, down, down, down
So come on, baby I tried to phone ya
Let's go and hang out in California
Come on, baby I tried to phone ya
Let's go and hang out in California
