"Happy to the Core"

It's such a great connection between you and me
I can feel the good vibrations every time you make me
see

That there is nothing better to go looking for
And the times that we're together make me happy to
the core

It's all about the moon and stars
All about the way we are
It's settled and it's understood
Get it on and get it good
All about the rising sun
Put a smile on everyone
It's settled and it's understood
Get it on and get it good

It's history in the making when we get it right
And there is no need to slow it down to get us through
the night
I know I'm growing older but I'm happy too
Just as long it means I'm getting bolder, there's hope
for me and you

It's all about the moon and stars
All about the way we are
It's settled and it's understood
Get it on and get it good
All about the rising sun
Put a smile on everyone
It's settled and it's understood
Get it on and get it good

I feel intoxicated all the time
When you're around me, I am on a cloud and feeling
fine
And I'm never gonna let you go
And I'm never gonna let you down
Cause I'm on a cloud whenever you're around

It's all about the moon and stars
All about the way we are

It's settled and it's understood
Get it on and get it good
All about the rising sun
Put a smile on everyone
It's settled and it's understood
Get it on and get it good
