So hard to find the right connection
While taking turns in the wrong direction
Don't wanna leave here disappointed
Just hope to find a good horse and ride it

And later when it all comes down
To why we bother hanging around
I tumble like tumbleweed
I'm sinking too deep
Crashing down from outer space
The telephone's been ringing for days
I dig myself a giant hole
And go mining for gold
(ooh yeah)

We're gonna take it to the limit
Open up the can and find out what's in it
No need to question the invited
Just hope to find a good horse and ride it
(yeah, yeah, just hope to find a good horse and ride it)

And later when it all comes down
To why we bother hanging around
I tumble like tumbleweed
I'm sinking too deep
Crashing down from outer space
The telephone's been ringing for days
I dig myself a giant hole
And go mining for gold
(yeah yeah, hey)

Just hope to find a good horse and ride it (yeah)
Just hope to find a good horse and ride it (oh, oh)
Just hope to find a good horse and ride it
Just hope to find a good horse and ride it (yeah, hey)
Just hope to find a good horse and ride it
