### "Some Other Day"

Visit "[Some Other Day](#)" on MotoLyrics.com

Some other day, gonna get out of the state I'm in  
Gonna set my mind on other things, oh yeah  
Taking it easy, taking it slow  
Some other day, there will be a different shade of blue  
When tomorrow comes to my rescue, oh yeah  
Taking it easy, taking it slow

Just spend a little loving on the boy who's been far  
gone  
And I will take my time to ease your mind and show you  
more  
Spend a little loving on me and I'll be done  
With troubled days in various ways where nothing is for  
sure

Some other day, gonna fix myself another drink  
When I find a better place to think, oh yeah  
Taking it easy, taking it slow

Take it all, make it all better in the end  
Eventually, I will be coming 'round again

Spend a little loving on the boy who's been far gone  
And I will take my time to ease your mind and show you  
more  
Spend a little loving on me and I'll be done  
With troubled days in various ways where nothing is for  
sure
