I'll get you out of this one,  
I'll be there right on time.  
This close you're getting here from  
What they call far behind.  
'I think she's better off dead, I think she's better off  
dead'.  
No my veins tell me I won't make it out alive.

Gone all the shaking showers  
She bloats when I deny  
Go fill the tanks all over,  
Gone with a long sigh  
'I think she's better off dead, I think she's better off  
dead'.  
No my veins tell me I won't make it out alive.

Oh relax now, she's OK  
Oh relax now, she's OK

No, no no no no no  
I can't believe now what you just said  
I can't conceive what you're doing to me  
'I think she's better off dead, I think she's better off  
dead'.  
No my veins tell me I won't make it out alive.
