Kicking in side effects by Pornorama
Somebody totally controlled me and told me the way
they were they hadn't been
For years: all of them regressing.
Now is the time and the way and the joke but the way it
is, it shouldn't have
Been, you won't find an answer.
Oh my mind pumpin' in, sure it's been more than five
less than four oh so near,
Coming in

Kicking in side effects, chances you never had, you
won't find an answer
Kicking it down the room, all of it in a gloom, you won't
find an answer

Where is the time that we both had our eyes on a roller
coaster, diving deep in,
You were so refreshing
It's been more than five less than four oh so near,
coming in

Kicking in side effects, choices you never had, you
won't find an answer.
Stripping it down the loo, all of it in a gloom, you won't
find an answer.
Kicking it down ahead, swallowing it instead, you won't
find an answer
Kicking it down the loo, all of it in a gloom, you won't
find, you won't find

Kicking it down ahead, swallowing it instead, you won't
find an answer.
Kicking it down the loo, all of it in a gloom, you won't
find an answer
