"So I Love You Baby"

Visit "[So I Love You Baby](#)" on MotoLyrics.com

Don't you wish to tell me love all my life
Love the feeling have you in my life
Just to think that we'll not together
Makes me think it makes me wonder whether
It's worth it now our separate love
You can talk to me inside i love you
I'm worried now I'll think of you
When I'll out with him tonight

When our love is true
So I love you baby yes I do
And I feel you too when your love is through
Still I'll love you baby yes I'll do
Then I'll need you too but I'll love him too

What's the point in turning tables my love
What's the point in spinning fables my life
Just to think that we are not together
Makes me ponder makes me wonder whether
It's worth it now our separate love
You can talk to me inside I love you
I'm worried now I'll think of you
When I'll out with him tonight

I love you, I love you, I love you, forever you
I love you, I love you, I love you, forever you
