Aqui estoy thinking about you carnalito  
Everytime you cross my mind tu saves que me agutio  
I remember when we used to kick back and have a  
blast  
It's hard to believe that was back in the past  
I remember those times like it was yesterday  
I knew if I was there and you were here it'd be the same  
way  
We never thought'd we'd go through anything like this  
Now we sit back and pray and say Rest In Peace  
All the homies got your name tatted behind their neck  
Some on their chest and back, arm just to show respect  
You're always on our mind everyday and every night  
We miss you carnal, things just ain't right

[Chorus]

These firme memories, of my brother  
They feel so wonderful  
Rest In Peace, Rest In Peace

Every chance we get we're sitting by your grave site  
Thinking about you, looking up in the sky  
Mom sits back whiping tears from her eyes  
We sit and talk about you and she starts to cry  
She says how much she wants to hold you back again  
In her arms like before, holding you by your hand  
Every night we pray and think about you bro  
It's hard to accept that you had to go  
I sit back and drift and remenice of you  
Of all the firme tiempos and the things we used to do  
Simon carnal, you're in mi mente all the time  
Tu tienes primero and you'll never stay behind

Your kids are growing up and they ask about you bro  
They say they miss daddy but I guess you know  
We say you're in the skies looking down at them  
They stare at one another like they don't understand  
Damn carnal, if only we could take time  
Back to the days when everything was fine

Oooooohhh, I'm missing you

[Chorus x2]

Sometimes I sit at the pad in the living room  
Checking out your pictures, listening to some oldies  
tunes  
The ones you liked, the ones you used to bump  
Confessing The Feeling, Try Me, and Let's Get It On  
Takes me back to the days when you were here  
Sometimes I close my eyes and I can hear you real  
clear  
Rest In Peace in the heavens up above  
Those you left behind from us got nothing but love  
Simon carnal, that's how it is, you're being missed  
Now all we have are the firme memories  
We used to share in the days when you were here with  
us  
Now another firme brother and a son is lost  
I know we'll see each other cuz we'll be there some day  
Rest In Peace carnal, for you we all pray

Oooooohhh, I'm missing you

[Chorus]

Heeey carnal  
Do you hear me calling  
I want to kick it with you my brother  
Back to back, like we used to  
With all the homies, homies  
And mi corazon carnal
