"All Eyes"

Every hour you undress it
Every eye on the finish line
You do... you're obsessive
Every eye all the time.

Roll eyes
You miss your lights.
All eyes
Innocent lies.

And you're a cigar at burning
You're on the rush until the glow is out
And your clocks forever turning
The strong will jump before the time is out

Roll eyes on
You miss your lights on.
All eyes on
Innocent lies.

You have all the time in the world
Time in the world
Time in the world
Time in the world
Time in the world
Time you have on.

Time in the world x 6

Time in the world x 6
