Don't want to hear about the way you're making out  
I don't want to have to talk I want to shout  
And so your president's dead mine's dead too  
Won't make a difference no matter what you do

American dream

And so the world will die we'll all die too  
Makes no difference no matter what you do  
And so you'll sing your song try to save the world  
Ah but I loved you more when you were poor

American dream

Is this what you want is this what you need  
Is this what you want you want you want is this what you  
Need  
You're so far from me

And so the world will die  
We'll die too  
Let's do the money grab you can do it too  
And sing another song to save your soul  
Ah but it's not enough gotta be some more
