"End Of My World"

Today I wished that I could fly
Fly so high I touch the sky
Today I wished that I was somewhere else

Tonight I wish I could could try
Break the rules and tell you why
Nothing ever seems to go my way

It's the end of my world
And I'm falling I'm falling
It's the end of my world

Tomorrow you will pass me by
Wonder why we had to lie
Tomorrow I will try and understand

Sometimes it's hard to carry on
Carry on with what went wrong
Sometimes I wish that I was someone else

It's the end of my world
And I'm falling I'm falling
It's the end of my world

It's the end of my world
And I'm falling I'm falling
It's the end of my world
And I'm falling I'm falling
It's the end of my world
