Baby we're already saved  
We can never be apart  
Baby we're already saved  
We can never be apart

There's no sadder song than this one  
You wake up alone in my arms  
All we want to do is breathe easily  
Wild eyes were all our charms

Baby we're already saved  
We can never be apart  
Baby we're already saved  
We can never be apart

Do I turn around and now like a child  
Go looking for another lesson to be learned  
How can I believe in love without a love?  
It's hard to learn this way, I'd rather play God

Baby we're already saved  
We can never be apart

So here's my story, everything is for you  
Here's my pain  
There's no glory in winning  
Here's my new beginning... la la la

We lie as lovers on a bed of lies  
It's the weight of my life to be here with you now  
But I never left before  
For now we have to breathe to bring this love alive  
We'll let each other go, let it go... let it go

Baby we're already saved  
We can never be apart  
Baby we're already saved  
We can never be apart  
Ooh ooh ooh ooh ooh...
