"Gods"

I'm lying on my death-bed
Light of life begins to fade
I feel how I fall
To the side of death
I hear gods calling me
Call me down to the grave
I know that I won't die
And I'll go there brave

Gods are calling me
Those Gods
Me and my soul we are saved
YES, WE ARE SAVED

Now I've passed my life
On the emptiness I'm flying
No one knows but me
What is after dying
Flying here with those gods
Flyind speed of light
What I was is forgotten
I'm the god without a fight

Gods called me
Me and my soul from the grave
Those gods
Me and my soul we are saved
YES, WE ARE SAVED

I won't come down
From a place which can't be found
Because I live now here
With gods without fear
