Wide.. Wide.. Wide Open
wide (open)
(wide) open
Cassio, Could You LOVE me
more.....more....
can we be friends?
On a journey to debate i call freedom
Words unsung
Hold me close
Don't let the wind follow
Don't let the wind take us away
Cassio...
Why the fuck would you do anything to work out all
wrong
It's my freedom
Cassio, Cassio
Cassio.....

Can you stomach what I've done
oh, into your soul
to your soul
can we drown
get caught in muddy waters
oh, and go down
oh, a river running down

Hold me close
Don't let the wind follow
Don't let the wind take us away

Cassio...
Why the fuck would you do anything to work out your
world
It's not free at all
Cassio Cassio...

Never let me go
She's been high up
It's my fall
She never let up
It's my memory

It's the only salvation, Oh Yeah
It's my final request

Oh, down...down and out
Oh, now fall
Now falling down
Thoughts of crashing down
Down and down
Now you're crashing down
Down and down
Now you're crashing down
Down and down and down
Now you're crashing down
Down and down
Yeah heah

So high up
Down and out
Down
Down, now
Down, my Cassio
Cassio
My Cassio
My Cassio
