"Big Red"

Visit "[Big Red](#)" on MotoLyrics.com

Have you heard about big red?

They even bought a beebread rig

To help the flowers in mean space

They're trying to make that place green

Hope the bees will take away the storm

Hope the trees will take away the storm

Don't know how this whole thing started

There was a crowd and then we parted

Don't know if I'll ever go back

It's a long way across all of this black

Here I am in my bucket today

In the middle

Here I am in my bucket today

In the middle

They got a mule they call Sal

Bulldozing up canal walls

They're gonna tap that icecap too

When they do they're gonna make that green map blue

The weather is finally getting warm

And the weather is really getting warm

Don't know how this whole thing started

There was a cloud and then it parted

Don't know if I'll ever go back

That's how I felt when I left that tarmac
