You believe if (you better)  
I got their number  
Classic camcorder  
I saw everything  
Dinner plate specials  
The shapes of cucumber  
I'm going to the papers  
I am going to sing  
In the cool, cool night  
And in the middle of the day  
I'm watching my back  
I'm waiting my visitation  
From the mem in black  
Are they grey or is it my own nation?  
It's been a good year  
It's been a good summer  
I wait for the door or that phone to ring  
Our little race  
I don't want to fail  
So just in case  
I made you a copy  
And I put it in the mail  
You believe it  
I got their number  
Classic camcorder  
I saw everything
