Who's standing beside me
To carry when I'm weary
There must be
Angels watching
Please save me
Can you hear me?
Can you hold me?
Don't let go of me
Will you be there, there?

Don't give in
I'm here with you
Just let your heart go on
In the darkness
I will see you through
Just let your light shine on

Hold on
I'm here with you
Be strong
I'm here with you

Don't give in
I'm here with you
Just let your heart go on
In the darkness
I will see you through
Just let your light shine on

Hold on
I'm here with you
Be strong
I'm here with you
