Adrenaline is rushing in my skin
Can you tell me what it feels like
I'm trapped but hope is sending me a green light
Can't move my body, everything is getting fuzzy
Gotta runaway freight train in my head
Wondering is there enough time
Tidal waves are crashing on my heart
Hanging on the line, take a breath
I'm not drowning this time
I'm not afraid to take a leap of faith and fly

A heartbeat in front of me is all I'll ever need
And voices saying can't outrun your fate
The truth, it's always been inside of you
Lost in the sunlight
Open your eyes and see everything that you can be
Grab hold of destiny and take it anywhere you choose
Somebody tell me what to do
I'm lost in the sunlight
Lost in the sunlight

No, didn't think I'd make it
The ground below was shaking
I found out where my strength is
The front lines I can take it
These illusions in my head they start
Telling me I might fall apart
But now I know the truth

A heartbeat in front of me is all I'll ever need
And voices saying can't outrun your fate
The truth, it's always been inside of you
Lost in the sunlight
Open your eyes and see everything that you can be
Grab hold of destiny and take it anywhere you choose
Somebody tell me what to do
I'm lost in the sunlight
Lost in the sunlight
