Green just like my dandy engine, this time I'll give  
up the ship

In the downtowns where I go tonite, it's full of dirty  
bitches

Yellow I speed up down the street, but now it's just  
too late

I couldn't pass the crossroad, but hey red light  
sucks!!

bridge:

A blue car follows me

A blue light on the top

And I see the cop! (and it says:)

chorus:

HEY YOU stop now at the traffic light

HEY YOU don't you hear me??

HEEEY YOU!!! (2x)

Nothing, nothin' can do that, I keep my pedal down

I don't care 'bout you man, leave me alone on  
the road

My road is full of earthenwares when I see it behind

In front of me I see full glasses,

with nothing but good beer!

bridge II:

The blue car fades behind

The blue light's no more there

Cop listen to me ( when I say:)

chorus:

HEY YOU ,stop me at the traffic light

HEY YOU ,stop me right now (don't you hear me?)

HEEEEEY YOU!!!!

(2X)

solo

repeat chorus:

FINALE

WHOA YEAH!! ( 4x)
