I'm drifting, I am dreaming, lost at sea yet still  
Believing  
There's a harbour on the shoreline and someday she  
will  
Find me  
My life's a sea of changes, can't control the storm  
That rages  
I can't hold on, I can't let go as I fight to hold my  
Course

I'm a ship and I'm lost on the ocean  
Back and forth on the waves of emotion  
Then just above the ocean's roar  
I see the light from a distant shore  
There you wait just beyond the horizon  
Lying there as the pale moon is rising  
You are all my heart beats for, I see my future tonight  
In the light from a distant shore

I set out on this journey, promised you I'd be  
Returning  
Days stretch into weeks, stretch into years and still I  
Wander  
What is this aimless mission, this empty dream that  
Keeps me wishin'  
When all I want, when all I need is to hold you in my  
Arms

I'm a ship and I'm lost on the ocean  
Back and forth on the waves of emotion  
Then just above the ocean's roar  
I see the light from a distant shore  
There you wait just beyond the horizon  
Lying there as the pale moon is rising  
You are all my heart beats for, I see my future tonight  
In the light from a distant shore

Now the heat of the sun's beating down like a drum  
And I've had no fresh water for days  
You're the vision of hope that helps me to cope with  
The pain

Your love's a candle burning  
Your love's a beacon bright  
Even in the heart of darkness  
I see the light

I'm a ship and I'm lost on the ocean  
Back and forth on a sea of emotion  
Then just before I give up all  
I see the light from a distant shore  
There you wait just beyond the horizon  
Lying there as the pale moon is rising  
You are all I'm living for, I see my future tonight  
In the light from a distant shore  
I see my future  
You're my life
