Out of darkness came forth a blinding light
Bizzing(?) in the sky like a burning flame
We got on our knees, we began to pray

Chorus

We worship you
We pray to you
Oh we praise you
Look into the rays of the rising sun
Here they come, one by one
Look into the rays of the rising sun
Here they come, one by one
Look into the rays
The rays

Salvation has come
We have found the one we can trust up
Bringing peace and lov
That caresses me, sets my spirit free

Chorus

Repeat chorus to end
