A life of work, is a life of crime  
You pay your taxes, you serve your time  
All that money, where does it go?  
Schools, prisons, hospitals, roads  
Government funding of military science  
Genetically engineered ultraviolet  
DNA, killer genes  
To program microchips, marines  
See stealth bombers and tomahawks  
On CNN, pay-per-view war

RISE, RISE  
RISE, RISE

Hey wage slave where's your profit share?  
They got ya down they're gonna keep you there  
Freeze your mind, metamorphose  
Cocaine karma in the heroin zone  
Multinational life is cheap  
Soldiers, workers, maggots meat  
Get on up, protest riot  
Are you collateral damage or a legitimate target?

RISE, RISE  
RISE, RISE

Sweet sixteen dehumanized  
Deaths head factory suicide  
Sweet sixteen dehumanized  
Deaths head factory suicide  
Sweet sixteen dehumanized  
Deaths head factory suicide  
Sweet sixteen dehumanized  
Deaths head factory suicide

RISE, RISE  
RISE, RISE
