[Chorus: repeat 9X]

All riders

[Prime Minister]

Someone put the key in the ignition start me up

Theres bout to be a lynchin on the Devil posse up

We's bout to call my crew all my dudes wit the dots

Suite up into your mind cause we gon hit it hard

We all comin straight up out of the life of luxury

Some riders on the ball and we gettin on them knees

A flag we see, my set is what we claim

We step up in the front cause we bout to throw them
thangs

About to lay them hands on the sick and the inflicted

The lame and appressed the bound and addicted

The wicked and we kick it for the men and the sin

We comin wit some hooks cause we gon reel them in
[All riders]

So homie if its you then regonize

Grape Tree is comin up and we some brothers on the
rise

And homie when we ride dont thinkin we be soft

We boot up in your grill we's bout to break em off [All
riders]

[Chorus: repeat 15X]

All riders

[Prime Minister]

Come on let's gather in the name of the Lord

Meet in the upper room just to be on one a cord

Cause I know the Lord, is strickly lookin at the hearts

A million to be saved not a million in a march [All riders]

God has got some plans for you man

Gotta understand the plan if you can lift them hands

To prosper you then cleanse your sins in His sight

No need for chasin money fame girls or that ice [All riders]

See at first the Kingdom is at hand

The riches of the Earth will be added to you then

And then you'll be sold out [No] Big Timah

That's the kind of hog that my dawg calls riders [All riders]

Thats why we ball cause we talk bout our maker

He made us 808ers, cross faders, rhyme sayers

He made us track layers, platnium bound can you see

We're ridin to the fullest cause the Greater One's in me [All riders]

[Chorus: repeat 17X]

All riders

[Prime Minister]

Cant you see Him only by His grace [So can I]

Just to see you in this place and, callin God
And if you knew it was time for you to hiede the call
God is lookin for some real men, believe it yall
We need to come and claim our rightfull place
To the throne, clear out your dome and get them evil
spirits out your home
And now it's on so suit up in your trust and love
God above dont want these broads just hustlin us
We need some real love bros gon ride for
Holy Ghost gon fill bros that gon die for
All the souls who were chose for this holy theme
Just like the King, man Prime had the same dream
That we go all out, so we know all about
The real riders and survivor not the fall outs
God is lookin for some men the real men
Who aint about to quit the game, who you ridin?

[Chorus]
