"Ballin"

Visit "[Ballin](#)" on MotoLyrics.com

yeah, yeah

Im about to step up to the plate
and take my swing
brother go head
time to blow your mind
my time to shine thats what jerome said
prophisy to me
its time we tear down these walls
as we commit to plant a seed
and believe that we ball
better check back to chapter one
as it describes my type of vow
this time a new works begun
no longer trapped, as a matter of fact
who dare to shoot your gift
fool you done flipped
if you think your tradition is a gift
take a whiff
open rhyme
better recognize you dont want me gone with my boys
houston, alabama, new york, cali
Atl up in here, New orleans in the house
we's about to walk into you
we gonna cleans it out
tell a brother now hows you gonna drink
are you gonna try to cut me with your hand
or put your mouth to the sink
better think what you been tossin
the name of the same we flossin
70 souls that god has called
cuz a brother gonna still ball

Chorus

(2 times)cuz we all ball(i know you want it cuz you want it)
that means we all tall
lay your hands to deliver up on all ya'll
so homie pay attention(i know you want it cuz you want it)
cuz you know just what you need

we some born again believers(i know you want it cuz
you want it)
and you can get you some

when i think about the things that i used to do
in the world as a little brother comin up
i was livin life as a thug
in the hood 5 fingers throwin up
but now im throwin
he set me free and put me in the game
all i had to do is trust in him
fall on my knees and call his name
and when i did he gave me my back
to go play ball, to reach and teach his people
everywhere in the world how to live so they wont fall
stand tall in this game of life
the enemy come to kill, steal and destroy
so you gotta discern that
and stay strapped
equip yourself with the word
gotta be prepared to go to war
anytime the devil steppin
no weapon
thats formed against the church
is ever gonna come to pass
as long as we ball on the same team
ain't no weapon in this land gonna last
better fast
and pray to god that he take away
self pride, back bitin, and jealousy
on the same team better let that spirit ride
he died
to set us free and to shed his riches with all
i dont know about you but until i die ill be blessed
cuz i was called to ball

Chorus

(2 times)cuz we all ball(i know you want it cuz you want
it)
that mean we all tall
lay your hands to deliver up on all ya'll
so homie pay attention(i know you want it cuz you want
it)
you know just what you need
we some born again believers(i know you want it cuz
you want it)
and you can get you some

im serving you six six splits
to shoot the gift
Now what yo gonna do

blessed
better think about it fast
cuz i done passed
and now its on you
true like i said we all ball
that means we all call
can a brother lay a hand on gangsta's man
hes about to deliever em all
so let the rythmn fall
so you can listen to em all ya'll
who know where we from
relieving you of some of these drugs
cuz prime gots the meal and the ticket
you can still get it
so when you drink of this cup
let it be in rememberance of his blood
break the bread for his body
remember they broke for his love
that he shared for us(right right)
cared for us (right right)
enable me to see
the God
and praise us(right right)
so how you gonna try to tell me how i should be
you ain't my maker
just a man, a pharisee
hes using me
and i dont hate ya
go on relax
imma do my thing ya'll
til the sky opens wide and the angels fall
im gonna serve my gift
im gonna claim my riches
and a brother gonna still ball

Chorus

(2 times)cuz we all ball(i know you want it cuz you want it)
that mean we all tall
lay your hands to deliver up on all ya'll
so homie pay attention(i know you want it cuz you want it)
you know just what you need
we some born again believers(i know you want it cuz you want it)
and you can get you some
