You got myself going round and round  
Once again you have me upside down  
It was just last night that I told myself  
That this was it; I want you off my life

I'm growing old, I'm growing wise  
So far apart from each other  
Can someone tell me why?

Suspended mind  
Extended range  
You got me, under your spell  
Suspended mind  
Extended range  
You got me, under your spell

I can't get now, get you off my mind  
It's in my face, can't you see the lines  
I can't relax, can't even close my eyes  
I wish I could,  
Get you off my side

I'm growing old, I'm growing wise  
So far apart from each other  
Can someone tell me why?  
Suspended mind  
Extended range  
You got me, under your spell  
Suspended mind  
Extended range  
You got me, under your spell

I'm working overtime  
Sometimes it's so unfair  
Do you think less of me when I'm asleep?

Suspended mind  
Extended range  
You got me, under your spell
