Wether you whine or grine
Wether you whine or grine
She shake it up right on time
She shake it up right on time

Shake up long, shake up strong
Stay on your feet and you can't go wrong
Wether you whine or grine

First thing she ax, if you 'ave your brush
If you 'ave your brush, you can avoid the rush
Wether you whine or grine

Come a ruff, ruff grine
Come a cool, cool whine
Wether you whine or grine

Wether you whine or grine
Wether you whine or grine
She like when you whine or grine
She love when you whine and grine

First thing she ax, if you 'ave your brush
If you 'ave your brush, you can avoid the rush
Mek it come whine or grine

She want you to whine and grine
She says take a skiddip all the time
She love when you whine and grine

First thing she ax, if you 'ave your brush
If you 'ave your brush, you can avoid the rush
Wether you whine or grine

She'll love when you whine and grine
Just take a skiddip all the time
She want a ruff, ruff stroker
She want a cool, cool stroker
