You're a faker
And you know it
You've got it all down
You're a faker
And you've shown it
To the world around
(Bridge)
You say sorry for one more day
While actions never change
You say you're free
And yet you've remained
Shadows hide your face
You're a faker
And you know it
Lying to get around
You're a faker
The only way it's going
Screamin' when time runs out
(Bridge)
You were made to know God
In this lifetime
Will you see
Before it's too late
This is what I pray
(Chorus)
Need a savior
