

Shaded Red "Sunk"

Caught in the undertow, down I go, deep dark below
Hold my breath, fight to find, anything
Some sort of lifeline
(Bridge)
Sunk
Can I find my way?
To the surface
Would pay
Anything to get new life
Lift me up from this compromise
(Chorus)
Silence - I want to scream out, water fills my lungs
I want to get it out but it's just begun
I can't breathe
I want to leave
Oh, I need you to save me now
Upside down, turn around, aqua-bound, swim to the
ground
Endless war, ocean floor, needing more
Any way I'm done for
