

Amy Ray "She's Got To Be"

Visit "[She's Got To Be](#)" on MotoLyrics.com

She's got to be with me always
To make sense of the skin I'm in
Sometimes it gets dangerous
And lonely to defend
Marking time with every change
It's hard to love this woman in me

She's the one that stills the seas
Finds the truth in this anarchy
Dives the depth of every age
Keeps this body and knows the shape

I will love I will protect this love
It was hard to get
I will love and I will protect this love
And it's anarchy

Society what part of me
Is swagger born?
What part of me is demeaned?
Mama when I turned to age
Is this body just a cage?

She's got to be with me always
To make sense of the skin I'm in
Sometimes it gets dangerous
And lonely to defend

I will love I will protect this love
It was hard to get
I will love and I will protect this love
And it's anarchy
