"Every Time I Think Of You"

I never knew

Chorus

I never thought that I would ever get over you
You don't know what you do to me everytime I think of
you
I can't explain the way I feel when you're near me baby
I can't control it, everytime I think of you

Verse One

Have you ever known somebody, that made you feel
Like you never knew, to be true
I don't what it is, that you're doing to me now
But I can't control it, all the things you make me do

Chorus

I never thought that I would ever get over you
You don't know what you do to me everytime I think of
you
I can't explain the way I feel when you're near me baby
I can't control it, everytime I think of you

Verse Two

I'm hasty, my mind's in a daze
And I'm going crazy, over you
Help me out, I can't think oh no
I'm so in love, so in love with you

Chorus

I never thought that I would ever get over you
You don't know what you do to me everytime I think of
you
I can't explain the way I feel when you're near me baby
I can't control it, everytime I think of you
Bridge

I can't think without you on my mind

(I can't even sleep)
When I'm with you everything is right
(You're all I see)

Chorus

I never thought that I would ever get over you
You don't know what you do to me everytime I think of you
I can't explain the way I feel when you're near me baby
I can't control it, everytime I think of you

I never thought that I would ever get over you
You don't know what you do to me everytime I think of you
I can't explain the way I feel when you're near me baby
I can't control it, everytime I think of you

Bridge

I can't think without you on my mind
When I'm with you everything is right
I can't think without you on my mind
When I'm with you everything is right
