"Gravity"

Waking up on the ceiling
Got an uptight downbeat feeling
It? a long way from ok today

Is this a trick - maybe voodoo
I don? stick to the ground like you do
Discriminated, float unweighted, now get me down

Gravity - seems to be malfunctioning
Gravity ?took a holiday
Suddenly, nothing? making sense to me, again
Gravity ?pulls the world away

Up is down - off balance
I?e been singled out by science
In suspense, what? the sense in choosing me

Tangled up in g-forces
Why? I skip my physics courses
Losing grip, I? slipping toward the sun
You call this fun

Gravity - seems to be malfunctioning
Gravity ?took a holiday
Suddenly, nothing? making sense to me, again
Gravity ?pulls the world away

Everything is synthetic
Light years from copasetic
I lost the laws of effect and cause today - I drift away

Gravity - seems to be malfunctioning
Gravity ?took a holiday
Suddenly, nothing? making sense to me, again
Gravity ?pulls the world away
