Your fiancée just left look what the sign say

My stomach grawl all day I need an entree

You in the club ballin' with a bottle of Andre

Roll with some niggas that go bout the motto, crime

(Verse)

I'm like nigga you a square, roll ass square
40 make 'em weave, long ass hair
If I don't get signed shit somebody better be scared
I wanna talk to the president somebody better be here
Somebody talk to the mayor fuck superman I'm here
Oh you in a bad state, who told you life is that fair
I take a look in that mirror, camaro thoughts in my ear
I gotta get to that outlet as J.C. Penney I'm starred
I'm serious, delirious, borderline and I'm aware
Mom told me don't go too far I told her I'ma stay near
When I was over there, around the block and over there
Granny caught me over here and now I taught we do it
here
