(Hook)

Bottles passing around, we gon' live it up
Spilling it all on the couch, we dripping all on the rug
Look the hater in his face, tell him that we don't give a fuck
We them been through a lot and they forget who we was
So what we doin' tonight well we gon' live it up
We gon' live it up, we gon' live it up
So what we doin' tonight well we gon' live it up
Real nigger shit don't you never intrerupt
Don't you never intrerupt

(Verse)

Philly Philly made me, man I find it crazy
I've been turned into a workaholic I was lazy
I ain't washed the dishes mom used to make me
Now I'm trying to push new dishes on the mercedes
Lil chick played me forcin to be my lady
Flow like Weezy she tellin' me call her baby
Superbowl coming I tell her I call her maybe
She knowin' that I'm the man and she wanting some time brady
These old high school rappers they never phase me
Still tryin' to call my old lime like they made me
Still tryin' to the old line is you crazy
You still tryin' to ball at 35 what you KD?
When I was writing these raps I wasn't Azy
Dropped out of college got booked and God saved me
Couple of months later that's when James Harden named me
Now my only target is your motherfucking label

(Verse)

I'ma take on, tell that bitch I take take her
Rapping I'm cold b so tell her I'm a laker
Tell her you been slacking I'm sorry that you a hater
You gave her too much info now you can't even date
her
I'll be all that on the dinner table never been a waiter
And I ain't got a record deal bet we get this paper
See you ain't wanna listen when I told you do it my way
So you gon' go your way and I'ma go to Jamaica
It's easy money on my mind said money is all I think
about
Rolly on that end in that try, see what that link about
Problems in my saving accounts see what that bank
about
Paper on my mind so much I got a brain account
And if they get to that looney shit we can bang it out
But anyways girl show me what that brain about
Heard you got that drive by here, we only hanging out
Privaledge I'm 'bout my bread ain't nothing change I'm
out
