### "Larger Than Life"

Visit "[Larger Than Life](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Bringing the better and breaking the boss  
... the city just looking for stars  
... remember the name, it's Probably Cause

What you really wanna do?  
What you really wanna be?  
What you really wanna see?

I've been lurking, working under pressure  
Get the best of me  
No I never show it, I've been holding back successfully  
Save it for production, acupuncture is my therapy  
Where I be, oh there I be  
I loose myself embarrassing,  
People's grounded flowly  
Feel like I'm... of helium  
Now it's like they hear me son  
I know it's kind of airy  
What the hell is happening  
I can't slow down how fast it's been  
I can't turn back, I'm in this bitch  
I hope it doesn't crash again

I'm big, gigantic yes, larger than life, fantastic  
I'm big, gigantic yes, larger than life, fantastic, classic  
I've been thinking bigger... and closer to the dreams I  
have  
Now there's... reality... gorillas, there's no turning back  
... so there's no holding back, I think I owe them that

To the fans that held me down from the jump

Stick around shows when I open this up  
See my set, hear me live, few they love, I see their eyes  
Seeing... you wanna see me rise  
Pay that back with a show that's high  
... and bangers  
I mash them up for strangers  
I watch them break they neck for us releasing all the  
anger  
And that's the purpose

I work this anger from the surface to the underground  
And all the way back from... clouds...

I'm big, gigantic yes, feeling larger than life,...  
Like you don't know the...  
Past this... to honor the people you know  
Who trying to blast...  
Can't control or match this...  
In search of something... afraid to...  
The killer save you...  
I'm just trying to live my dream

I'm big, gigantic yes, larger than life, fantastic  
I'm big, gigantic yes, larger than life, fantastic, classic  
I've been thinking bigger... and closer to the dreams I  
have  
Now there's... reality... gorillas, there's no turning back  
... so there's no holding back, I think I owe them that.
