[Intro: Scotty]

Lovely lady, I like the things you say  
The things you do, that makes you a  
Lovely lady, through the ups and the downs  
Smiles and the frowns, you always around

[Prodigal Sunn]

I take you back when I first met her, I had the leather  
New better, than a sweater plated, smooth as a love  
letter  
Checkin' the action, pretty eyes, attractin'  
Sunzini in the place to be, ladies, what's happening?  
Lights, cameras, baby, I'm not your amateur  
Put it on you, good hood, P-Sunn the damager  
I called a glimpse and from a distance, and in an  
instance  
Approach her a like a queen, show her that my chi is  
king  
Manueve a piece on the scene clean, pardon me miss  
Excuse me, I think I seen you in a magazine  
Peace Queen, I be the God Sunzini  
She said I'm Irene, a pleasure to meet you, but only  
love I greet ya  
All smiles, plus she dug my demeanor  
She can tell I was a lover on reefer, we got deeper  
Conversation fascinatin', spectacular  
Energy post-satan, she was feeling the flatula

[Chorus: Scotty]

Lovely lady, I like the things you say  
The things you do, that makes you a  
Lovely lady, through the ups and the downs  
Smiles and the frowns, you always around  
Lovely lady, and you starting it right  
Beauty's tight, girl you light up the night  
Lovely ladies, yeah, and I must confess  
You do it the best, and pass all tests

[Prodigal Sunn]

Good loving from beginning to end, through thick and  
thin

Together we in, indented like juice and gin  
Tighten the loose ends, notice Sunn will stay producing  
Skip the illusion, she screamin 'Zini do it again  
Gaspin' for action, psyche, attackin' with passion  
Bitin' the neck, squeezin' her chest, romancin'  
Hit her fast, slow, keep it on the low, Assassin  
Sixty Seconds on the clock, and I'm still mashin'  
Shape-shape, bodily fashion, pussy's smashin'  
Couldn't get enough of the dragon, the sea captain  
You know the happening's, for now I'm strappin'  
First rules of intercourse, get no bear backing  
Smackin', hit her with the monkey wrench  
Shorty had bank, like Merrill Lynch  
But she loved to get her nipples pinched  
Pardon my French, I love them ladies  
I got admit, sometimes they drive you crazy

[Chorus]

[Prodigal Sunn]

I love 'em sweet, sexy and smart, sparkin' with a lot of  
soul  
And baby, if you left me, I can be your pot of gold  
I show you how to roll it, Sunn, will never fold  
Silent as a rocket, completin' in control  
Alotta rockets sold, did my thing around the globe  
The greatest story never told, written in the scrolls  
I treat you like a rose, let you know I'm hear to grow  
Forget so and so, selfish jealous silly hoes  
Lace you with precious, stoned, amazed by your pretty  
tone  
Baby girl bone, mommy got it going on  
Boo, I treat you right, I never ever treat you wrong  
You listen to the words of this song, love you long  
And I'm keep it strong, slide it up in them thongs  
A rump-a-pump-pum, hit it up, like a drum  
Fe-fi-fo-fum, here I come, come  
Come get some, girl, if you want some

[Chorus 2X]
