

Shades Apart **"Not The Same"**

Visit "[Not The Same](#)" on MotoLyrics.com

Left the water running out again
Can you feel it washing over you
Left the water running out again
Can you feel it coming over you
Left the water running out again
Can you feel it coming over you
Can you see it when you close your eyes
Can you feel it back inside you mind
Now that you've gone away it's not the same
Now that you've gone away it's getting better
Now that you've gone away I'm not afraid
Now that you've gone away it's not the same
Left the motor winding out again
Can you feel it running over you
Can you see it when you hide your eyes
Can you feel it start to come alive
Left the fire burning on again
Can you feel it burning over you
Can you see it when you hide your eyes
Can you feel it when it starts to rise
