"On The Inside"

Push forward
Lay to rest old fears
Not long ago I was one of them
I'm changing
The more I've changed
The harder it is to face what I was before

It's one man against one man
I'm gonna take a stand
Older now

Stand silent
The pain is there
The fear burns in my eyes
I won't look back
There's nothing left to hide
I'm different but I don't need it written on my face
The real difference is inside

One man against one man
I gotta take a chance

No pity
No regret for what I left behind
Yesterday is dead
I am still alive
It's clear now
What I fought so hard
I fought against myself
I'm not ashamed of what I am
