Getting too late
Nothing can wait
Pick up the pace
The clock is ticking
Losing this race
Feeling like a waste
Taking up space
My brain is sticking

The pressure? building up in here
If i were you i? just stand clear
In the red zone
Like a cyclone
Ready to blow
Overload

I? melting down
I? radioactivated - i? radioactivated
See me melting down

Better mutate
Get my act straight
Learn to relate
Or else start faking
Try to blend in
Make some new friends
Follow the trends
The circuit? breaking

The pressure builds up more and more
If i were you i? hit the floor
In the red zone
Like a cyclone
Ready to blow
Overload

I? melting down
I? radioactivated - i? radioactivated
I? feeling like fallout
I? melting down
I? radioactivated - i? radioactivated
See me melting down

Getting too late
To evacuate
Emergency state
Run for cover
Hit my threshold
Same old same old
Circus sideshow
I? taking over

Pressure? rising higher still
This is not a fire drill
What can i say
It? a nice day
For a meltdown
Look around

I? melting down
I? radioactivated - i? radioactivated
I? feeling like fallout
I? melting down
I? radioactivated - i? radioactivated
See me melting down
