run away
run for your life
you cannot hide - hide out
heartbeat racing, keep the doors in sight
sky is falling
voices calling
engine stalling out
keep your eyes shut ?keep your eyes shut tight
shockwaves shatter everything ?you can? explain it
shockwaves scattering your brain ?blowing you away
shockwave ?shockwaves - blowing you away
stay in focus
hold together
helter skelter
things are not all right, not tonight
one more warning
clouds are forming
crowd is swarming in
can you get through, maybe you just might
shockwaves shatter everything ?you can? explain it
shockwaves scattering your brain ?blowing you away
shockwave ?shockwaves - blowing you away
