A satellite crashed down last night
On your front lawn
I came to see if you're alright
But you were not alone

I will be around, don't count me out
Take a look around, I'm counting down
Even though I feel like I'm in outer space
Watching over you, watching over you

A cosmonaut crashed on my spot
On your front lawn
You played along, put your spacesuit on
And blasted off

I will be around, don't count me out
Take a look around, I'm counting down
Even though I feel like I'm in outer space
Watching over you, watching over you
Watching over you, watching over you
Watching over you

Another night, another flight
I watch you go
If I don't tell you how I feel
You'll never know

I will be around, don't count me out
Take a look around, I'm counting down
Four, three, two, one, I'm in outer space
Watching over you, over you

Watching over you, watching over you
Watching over you, watching over you
Watching over you, watching over you
Watching over you, watching over you
