Libra

My name is Keith

We got some nice things for the ladies

Go get the ladies some flowers and stuff

Other people don't love them like we do

I never hurt you talk to you decent at night

And in the daytime I watch you while you sunbathe

And if it rains I bring you straight above the water girl

Let me bring you in the house and make some cope of
your back

I am stupisfied you know I got my way up

I push you over a 300 just to keep me in the dirt

I love it when we hit the city you got the fireplace

I bring you fire in the a place

Why can't it be me and you

I see your chocolate brown skin

I see your peanut-butter skin breast make me feel like a
child go feed me

I bite your righth cheek and leave a monkey bite

Why can't we be one 'til we die

And if we die why can't we multiply

And if we cry I make sure that a wild kid like me takes
care of home while

we two are take

(7x) Let me talk to you

I got some conversation

I'm not Babyface Jimmy Jam of the Lewis

When I look at you the sex male wanna do this

Taste you up and down

Bite the honey brown

Takes you hand up so we can go and have fun

Pope the grill out and everybody chill out

Got to play the little prince

Marvin Grey, sexual healing

You on the blanket I'm ready for fingering

Holding you in the grass whith your so bra jingelling

I got a fruit cocktail for your stomach

Some jellies and juicy fruits from Bellies when I rob it

I lick you there where he won't we lick you there where
he don't
Bringing extra underwear to the picnic
Amen to excess we can get love sick
so quick mick and humble my ohhhhhh

(7x) Let me talk to you
I got some conversation

In the bathtub looking for your bubble bath
With a condom you bout to make me wonder
Woman I drink your bath water like a beaver art
And pop the bubbles of your bath with my indexfinger
Drinking cups and teas in the fireplace
My hand is slight, touching on the right place
The G-spot I know you got a lot of loving hugging
Your juice is ooze how can I loose
When a woman loves a man
she'll bring her best friend with laundry over to your
house
When a woman loves a man, she'll clean the grind off
your feet

(4x) Let me talk to you
I got some conversation

Yeah baby you know I respect you for
Brought me to Burger King
Ride with me in my litty lorry you know sticking bombs
sticking them
Yeah you know light castles be emotional
65 Shebbies can't afford the Benzes we can only
fantasize
So you won't need them...
