Chapter 1:

Long ago the skies turned gray
the fallen sun had gone away and left us cold
until one thousand years would pass and we'd sail
away
Trapped within such mystery
we'd seen a light we'd never seen all crowned with
gold
through morning mist with tears of ice see her coming
down
All upon our knees
Falling with the rain, with the rain
a queen has come before us
Falling with the rain, with the rain
I was alone, see how she took us all
By her side we'll stay
Shadows of her love, blacken dawn, fill the empty skies
with
Powerful her throne, oh my queen, upon this silent
maze of ice
Oh how I love her so, yah I can't let go, she is all I need
In the ice I'll stay 'till my dying day

Chapter 2:

I have come here for so long I never have known why
only to have been shown away
There I saw you standing in the light for so long
knew you had something more to say
All my night times are full of dreams of you and I
and falling rain
Oh I know you so well

[Chorus:]

You are my queen of the city of ice
a frozen love has never left her eyes
Long live my queen of the city of ice
and alone her frozen love was carved in stone

Chapter 3:

I had a dream
something I believe in
Always knew the
day would come
and they would come
and they would go
and they would melt
away our home
and in my dreams
their fires burned
they tear my heart I
listen to the wind
listen to the wind
listen to the sad song
she is singing now
listen to the falling of the night
and see she knows
it's written in her eyes
Lately I've had feelings
that are so hard to describe

like armies marching
from the South
and all the while she's blind
she's falling

Chapter 4:

So it came to pass that
no more rain
would fall to them
They come to
bring us to our knees
With mighty fires they built
around these city's castle walls
Our city melts into a sea
So we run into the hills and
far away to cry in vain
Oh no no my queen

[Chorus:]

You are my queen of the city of ice
the bringer of my life is fading fast
Goodbye my queen of the city of ice
and alone she slowly sinks into the sea

Chapter 5:

The City Melts (Instrumental)

Here I stand I'm all alone now, cursed by fate
I've burned my wings and I can't fly
all around a sea of ice, oh, could it be she waits for me
but I'm never going to find out am I?

So long, farewell, we are leaving
On our way now, new beginning

so long falling with rain
falling with rain
farewell falling with rain
falling with rain
we are leaving torn in the wind
with a shake and a spin
and I don't ever think I will
come here again
on our there's a hole in my life
carved it with ice
way now cause fate was a dealer
that didn't think twice
new beginning I'm so lost on my own
a statue of stone
carving your name
cause I'm falling I'm falling
I'm falling I'm falling
