Hey hey hey  
Got to believe

Walking down the longest on a Sunday afternoon  
You say girl I want you but there's something that I  
know  
I don't know what you know when my feeling's  
surrounding my heart that's blow away  
Now I'm here and forever together  
This love can be true

Hey hey hey

Show me your loving coming  
Give me your passion darling  
Never forget this sorrow  
Cause you don't have to follow  
My broken dream is coming  
And it surrounds my morning  
Show me your love is forever believe in come and  
dream  
I got to believe

Tell me Baby what to do when there is something  
wrong  
Dial my number quickly if you want something more  
I don't know what you know when my feeling's  
surrounding my heart that's blow away  
Now I'm here and forever together  
This love can be true

Hey hey hey  
Hey hey hey

Show me, show me
